## PREFACE

### Introduction

The purpose of these Estimates is to present to the National Assembly information on the expenditure requirements and revenue forecasts of the Government for the fiscal year and, where required, to seek authority for such expenditure through an Appropriation Act. The authorities identified in these Estimates are divided into two categories: appropriated and statutory. Appropriated authorities are those for which the Government must seek approval from the National Assembly on an annual basis. Statutory authorities, e.g., public debt, are those for which the National Assembly has already provided on an ongoing basis, through the approval granted by specific legislation containing an appropriation authority. These are included in the Estimates for information only.

The basic structure of the Estimates presented to the National Assembly takes the form of three volumes and follows a theme of presenting the initial data at a high level of aggregation followed by more detailed information. **Volume 1** is divided into four Sections. Section 1 - The Expenditure and Revenue Plan - summarises the Current and Capital Expenditure requirements of the Central Government, and forecasts of Revenues; Section 2 provides details of the Current Expenditure requirements of each Agency within the Estimates; Section 3 gives details of the Capital Expenditure requirements of each Agency within the Estimates; and Section 4 provides specific macroeconomic data in support of the Budget, selected personnel related data, and the budgets of Statutory Bodies and Constitutional Agencies for the fiscal year. **Volume 2** describes the Programme structures, indicators, objectives, strategies and impacts of each Agency as well as summarised financial performance data. **Volume 3** provides information on the profiles of projects included in the capital expenditure plan.

### The 2026 Main Estimates in Summary

There are nine Government-wide summary tables that are included in Section 1 of Volume 1.

- a) Table 1 - Central Government Summary of Revenue and Expenditure - shows a summary of capital and current revenue and expenditure and the overall surplus and deficit;
- b) Tables 2(a), 2(b), 3 and 4 - show the forecast and actual revenue of the Government for the fiscal years covered by the Estimates;
- c) Table 5 - provides the forecasted expenditure requirements of each Agency included in the Estimates and by type of authority (appropriated and statutory);
- d) Table 6 - provides a summary by Agency of current expenditure requirements for the fiscal years covered by the Estimates;
- e) Table 7 - provides a summary of current expenditure in accordance with the Chart of Accounts for the fiscal years covered by the Estimates;
- f) Table 8 - summarises capital expenditure by Agency and Programme for the fiscal years covered by the Estimates.

Section 2 of Volume 1 of the Estimates presents the expenditure requirements by Agency. Throughout this Section, expenditure details are displayed in four columns: Actual 2024, Budget 2025, Revised 2025, and Budget 2026. Budget 2026 relates to the forecasted amount to be appropriated and disbursed during the fiscal year 2026. Revised 2025 figures reflect the latest

unaudited expenditure of the previous fiscal year. Budget 2025 indicates the amount that was approved by the National Assembly for the 2025 fiscal year. Actual 2024 indicates the actual expenditure for 2024.

Each Agency's presentation begins with an Agency summary table that shows the number of Statutory and Appropriated authorities assigned to the Agency for all Programmes within the Agency. The next table provides details on the Actual Staffing for each Agency. The next series of tables provides a summary of Statutory and Appropriated authorities for each Programme within the Agency. Each Programme's financial summary is preceded by the Programme's Objective. The subsequent series of tables report the individual Programme's current expenditure details in accordance with the Government's approved Chart of Accounts with details of Actual Staffing for the Programme. Also included in Section 2 is Agency 90 - Public Debt, followed by tables which capture details of the public debt, Education Subventions and Grants, and Contributions to Local, International Organizations and Constitutional Agencies.

Section 3 of Volume 1 provides a summary of capital expenditure by sector and type of financing; by Programme and source of financing, as well as details of capital expenditure.

Section 4 of Volume 1, through a series of Appendices in support of the Budget, contains information on selected macroeconomic items such as national accounts aggregates of the economy, gross domestic product, real output index, balance of payments, monetary survey, consumer price index, financial operations of the public sector, loan guarantees issued by the Government of Guyana, selected details on the servicing of the external debt. Section 4 also presents selected personnel and other employment related information as compiled by the Ministry of Public Service. Finally, this section presents the budgets of Statutory Bodies and Constitutional Agencies for the fiscal year.

Volume 2 provides detailed information concerning Programme structures, objectives, strategies, impacts and indicators of each Agency as well as summarised financial performance data. This information complements the details provided in Volumes 1 and 2.
